

06th May, 2021

**Dear Parents,
Greeting of the day!**

We are witnessing extremely disturbing & challenging times. Today almost every one of us has either lost some one near & dear to us OR they are battling for their life in a hospital. In such circumstances it's vital that we are empathetic towards those who are suffering due to the pandemic.

We are aware that some of the classes are not being conducted regularly, the only reason for this is that these Teachers have been tested COVID POSITIVE and hence are not able to take the classes.

We seek your cooperation in letting them recover quickly by giving them appropriate time & space.

More than us it's these teachers who are worried about their students & the loss of days in academic deliveries & have promised to make good the academic loss through additional sessions.

Right now what they need is our support & concern and a humane approach.

**Thanking you
Regards,**

**Ms. Archana Pal Singh
Principal**
